WHAT IS the Central Civil Register?

The Register records the events and acts of marital status which are not the responsibility of other registries, or when exceptional circumstances mean that the corresponding registry is unable to record them; it also records events and acts of civil society affecting Spaniards abroad. Additionally, when a Consular Register is responsible for recording an event because it occurred abroad and the person affected is resident in Spain, this must first be registered in the Central Civil Register, and later transferred to the corresponding Consular Register.

The Central Register will also receive books consisting of duplicates of:
1. consular registrations.
2. Registrations of births registered in the Municipal Registries of the home country in the case of international adoption, and of foreign citizens who have acquired Spanish citizenship.
3. Registrations of Municipal Registries relating to judicial rulings affecting legal capacity, parental authority and custody of a minor, the care or administration of persons presumed incapable or minors not subject to legal custody, and the constitution and administration of protected assets.

WHO can apply?

The Civil Register is public for all who have an interest in knowledge of the entries, although in accordance with article 21 of the Civil Register Regulations there are exceptions to public access (in order to protect the personal or family privacy of those concerned).
